

MES Webinar Series

We will be continuing our successfully launched MES Webinar series. In each series, we will inform you about tools, applications, and concepts to optimize model-based software development and give you the chance to exchange ideas with our experts.

Participation in our webinars is of course free of charge. Webinars are held in English (unless otherwise stated).

On Demand Webinars

You can find a selection of webinar recordings here.

Upcoming topics:

Central Quality Assessment of Software Projects

Apr 12, 2016

Is information about the current quality level of your software project available to you at any given time? Learn how data from different tools can be processed automatically in a central location in a way that clearly represents and measures the quality of your software development process.

A visible assessment of the maturity level of your software allows identifying possible weak points and initiating appropriate countermeasures early on in the development process.

Concepts and functions will be presented by means of the MES Quality Commander® (MQC).

The webinar will take place on two alternative dates in English:

Date 1: April 12, 2016

Time: 4-5 pm CEST (Berlin)/ 10 am EDT (Detroit)/ 19:30 pm IST (Bangalore)/ 10 pm CST (Beijing)/ 11 am JST (Tokyo)

Registration: <https://model-engineers-event-en.webex.com/model-engineers-event-en/onstage/g.php?MTID=edbf9bc64c738ff9fdab3d260521979db>

Date 2: April 13, 2016

Time: 10-11 am CEST (Berlin)/ 4 am EDT (Detroit)/ 1:30 pm IST (Bangalore)/ 4 pm CST (Beijing)/ 5 pm JST (Tokyo)

Registration: <https://model-engineers-event-en.webex.com/model-engineers-event-en/onstage/g.php?MTID=ec71a9d3b537f9b4ffda59ad295ea4591>
