

MES Webinar Series

We will be continuing our successfully launched MES Webinar series. In each series, we will inform you about tools, applications, and concepts to optimize model-based software development and give you the chance to exchange ideas with our experts.

Participation in our webinars is of course free of charge. Webinars are held in English (unless otherwise stated).

On Demand Webinars

You can find a selection of webinar recordings here.

Upcoming topics:

Online meeting Modeling Guidelines Interest Group (MGIGroup)

Sep 17, 2019

Analysis of the Lifecycle of Models

Changes to requirements also apply to older models. A ready-made model often serves as the basis for the next product development. For this reason, this MGIGroup Meeting is dedicated to the analysis of the lifecycle of models. In particular, we will take a closer look at the maintainability and reusability of models. Our guiding questions are: How often is the architecture of a model adapted? What are the influencing factors for this and how can we develop models timely and with foresight?

The language of the online meeting is English.

Date: Tuesday, September 17, 2019

Time: 3 pm CEST (Berlin)/ 9 am EDT (Detroit)/ 6:30 pm IST (Bangalore)/ 9 pm CST (Beijing)/ 10 pm JST (Tokyo)
