

# MES Webinar Series

We will be continuing our successfully launched MES Webinar series. In each series, we will inform you about tools, applications, and concepts to optimize model-based software development and give you the chance to exchange ideas with our experts.

**Participation in our webinars is of course free of charge. Webinars are held in English (unless otherwise stated).**

## On Demand Webinars

You can find a selection of webinar recordings here.

## Upcoming topics:

# Reducing Test Efforts for Highly-configurable Systems

Dec 13, 2016–Dec 14, 2016

Software systems, and automotive software in particular, are becoming increasingly configurable to fulfill customer needs. While new methods such as product line engineering facilitate the development and enhance the efficiency of such systems, costs of conventional test methods increase substantially with every tested variant. In this webinar we analyze key cost factors of testing a product line system and discuss solutions to reduce test efforts while maintaining test quality.

The webinar will take place on two alternative dates in English:

### **Date 1: Tuesday, December 13, 2016**

Time: 4-5 pm CET (Berlin)/ 10 am EST (Detroit)/ 8:30 pm IST (Bangalore)/ 11 pm CST (Beijing)/ 12 pm JST (Tokyo)

Registration: <https://model-engineers-event-en.webex.com/model-engineers-event-en/onstage/g.php?MTID=ed7c16fc53061321d04300e61d45cf954>

### **Date 2: Wednesday, December 14, 2016**

Time: 10-11 am CET (Berlin)/ 4 am EST (Detroit)/ 2:30 pm IST (Bangalore)/ 5 pm CST (Beijing)/ 6 pm JST (Tokyo)

Registration: <https://model-engineers-event-en.webex.com/model-engineers-event-en/onstage/g.php?MTID=e6cf12a33199fc28341229f0c007de7ed>
