

MES Webinar Series

We will be continuing our successfully launched MES Webinar series. In each series, we will inform you about tools, applications, and concepts to optimize model-based software development and give you the chance to exchange ideas with our experts.

Participation in our webinars is of course free of charge. Webinars are held in English (unless otherwise stated).

On Demand Webinars

You can find a selection of webinar recordings here.

Upcoming topics:

Review Workflow in MXAM

Apr 11, 2017–Apr 12, 2017

Today function developers are under enormous time pressure and have to meet high quality standards. According to ISO 26262 (6-4), they must justify any deviation from established safety measures and non-compliance with requirements. Therefore, it is even more important that individual tools support efficient workflows and adherence to strict quality processes within a comprehensive tool chain. This webinar will show you how the MES Model Examiner® not only provides automated examination/analysis and assistance in complying with modeling guidelines, but also support during necessary review activities: reviewing and justifying deviations, as well as reviewing guidelines which cannot be checked automatically.

The webinar will take place on two alternative dates in English:

Date 1: Tuesday, April 11, 2017

Time: 4-5 pm CEST (Berlin)/ 10 am EDT (Detroit)/ 7:30 pm IST (Bangalore)/ 10 pm CST (Beijing)/ 11 pm JST (Tokyo)

Registration: <https://model-engineers-event-en.webex.com/model-engineers-event/onstage/g.php?MTID=eee61b313989f64e5c3d027e9ecaaabdf>

Date 2: Wednesday, April 12, 2017

Time: 10-11 am CEST (Berlin)/ 4 am EDT (Detroit)/ 1:30 pm IST (Bangalore)/ 4 pm CST (Beijing)/ 5 pm JST (Tokyo)

Registration: <https://model-engineers-event-en.webex.com/model-engineers-event/onstage/g.php?MTID=e8aaabc6e768a862f080c33497d9ffdb7>
