

Cutting-edge Research, Innovation and Expansion in Asia

MES Takes Part in Cutting-edge Research

We are involved in several top-level research projects conducted by the *BMBF* (Federal Ministry of Education and Research) in the field of information and communication technologies (*IKT*). Dr. Ingo Stürmer, founder and CEO of Model Engineering Solutions (MES) held the keynote speech at the BMBF symposium *KMU Innovativ*, on November 17, 2014...

Consistent Data Formats with the Excel Adapter® for MES Model Examiner®

The application of the MES Model Examiner® with the MS Excel®-Adapter allows inconsistencies to be automatically detected and repaired. This yields significantly reduced development times and makes the embedded system less susceptible to error...
