

Join in the Discussion to Improve Safeguarding Software Models!

NEW: Modeling Guidelines Interest Group

You dislike transition actions and sometimes use data store memory blocks?

Then we'd be pleased to welcome you to the [Modeling Guidelines Interest Group!](#)

Bring your experience to the table, take part in informed discussions, and make safeguarding software models more reliable.

**First online meeting:
Tuesday, November 3, 2015,
2:30 p.m.**

[Register](#)

Everything in View with the Assessment Analyzer

With the latest release of MES Test Manager® (MTest), establishing the causes of software errors has become so much easier. The Assessment Analyzer gives you all the information you need at a glance.

Webinars

November 10 - 11, 2015
[Gear up with MXAM DRIVE 3.6](#)

November 24 - 25, 2015
[ISO 26262-compliant testing with MTest 3.2](#)

December 01 - 02, 2015
[Well begun is half done - What you need to know before adopting model-based software development](#)

January 19 - 20, 2016
[ISO in 10 steps](#)

Trade Fairs

November 19, 2015
[Forum Mécatronique dSPACE 2015 in Paris](#)

November 30 - December 04, 2015
[Embedded Software Engineering Kongress 2015 in Sindelfingen](#)

Training Event

November 26 - 27, 2015
[Model-based Development of Embedded Software in Compliance with ISO 26262 – Challenges and proven Solutions](#)

The event language is English.

High-Quality Software on Land and in the Air

MES is beginning two new research projects: safeguarding safety standards in avionics model-based software development and software development methodology for multicore processors.
