MES Launches MES Ltd. in Shanghai

MES' on-site subsidiary firma supports the innovation boom of the Chinese automotive industry in the development of embedded software

On July 1, 2019 Berlin-based software company, Model Engineering Solutions GmbH (MES)'s subsidiary firma, Model Engineering Solutions Ltd. in Shanghai officially launches into the Chinese market. This is in response to the strong demand and current innovation boom in the Chinese automotive industry. The company is an important supplier of embedded software development tools to the world's leading automobile manufacturers and continues to expand its reach in the field. Through direct sales, MES also assumes the responsibilities of its previous sales partner in Shanghai, YISU Information Technologies Co., Ltd. (Yisu).

MES Supports Women in STEM

MES was a Partner of the #FTALive2019.

The endorsement and support of women in STEM fields is one of the guiding principles of Berlin-based software company Model Engineering Solutions GmbH (MES), which is why more than a third of MES' employees are women. The percentage is even higher among developers and engineers at 38%. For the second year in a row, MES supported the Femtec. Alumnae e.V. at the LIVE conference at this year's FTALive conference 2019 (#FTALive 2019).
